

Atlas

Model Atlas 1060 GY- 19

The Atlas, just like its Greek namesake, projects strength and durability.

The source of this strength and durability is to be found in the high quality cast iron steel and the latest technical developments which have been applied to this stove.

This ensures a long lifespan giving you and your family long term cooking pleasure and a homely ambiance.

The spacious hotplates give ample room for all you pots and pans.

The oven is made of high quality stainless steel.

There is also the possibility to add extra accessories to the stove such as a distance frame, a grill plate and a shelf attachment.

Our wood stoves have been produced in a way that makes them fully recyclable.
